Ceramic: Ceramique + Verre laminé

42 La gamme Ceramic de Seres présente les plateaux table en céramique les plus résistants et les plus attrayants. Solides et durables, ils conservent leur beauté et leur personnalité inchangées au fil des ans.

La céramique est un matériel polyvalent qui offre une grande variété de solutions. Les plateaux tables en céramique résistent à toutes sortes de taches : vin, huile... Il suffit d'un chiffon humide pour récupérer l'aspect d'origine.

ATTENTION !! Il est conseillé de ne pas laisser sur la surface en céramique, les casseroles, les poêles ou tout objet ayant été en contact avec le feu ou à des températures très élevées.

Melamina

Il s'agit d'un panneau composé de particules de bois recouvertes de différents motifs et d'une finition en résine mélaminée. La résine offre une surface complètement uniforme sur le panneau de particules. La mélamine est un matériel non po-

reux, dur et résistant. Pour l'entretien utiliser un chiffon humide, soit dans une solution d'eau avec un détergent doux. Il ne permet pas le développement de micro-organismes ou de parasites.
